Graduate Certificate in Construction Management

The mission of this program is to prepare engineers, architects, and related construction professionals who will address the needs of the 21st Century construction industry. The program also strives to expand and improve the body of knowledge in construction, and provides service and outreach activities to the construction profession.

The program is offered online through UTEP Connect. (https://www.utep.edu/extendeduniversity/utepconnect/)

Admission Requirements

Applicants must have completed a bachelor's or master's degree in Engineering, Architecture, Business or Physical Science. Candidates for admission from other backgrounds will be considered for admission if they have construction experience acceptable to the department. Applicants who do not have degrees from English medium universities are required to submit scores from the Test of English as a Foreign Language (TOEFL). A score of 213/550 is required for admission.
